

# International Joint Conferences on Computer, Information and Systems Sciences and Engineering

(CIS<sup>2</sup>E 09)

<http://www.cisse2009.org>

December 4th – December 12th, 2008  
Sponsored by University of Bridgeport  
Technically co-sponsored by IEEE  
Computer Society and Communications  
Society (Connecticut Section)

Third International Conference on  
Telecommunications and Networking  
(TeNe 09)

<http://www.cisse2009.org/tene.aspx>

## Chair, Intl Advisory Committee

### Prof. Toshio Fukuda

Depts. of Micro System Engineering, Mechano-  
Informatics & Systems  
Nagoya University  
Furo-cho, Chikusa-ku  
Nagoya 464-8603, Japan  
Phone: +81-52-789-4478  
Fax: +81-52-789-3115  
[fukuda@mein.nagoya-u.ac.jp](mailto:fukuda@mein.nagoya-u.ac.jp)  
<http://www.mein.nagoya-u.ac.jp/staff/fukuda-e.html>

## Conference Chair

### Prof. Amr El Abbadi

Dept. of Computer Science  
University of California  
Room 3115, Engineering I  
Santa Barbara, CA 93106  
Phone: +1 (805) 893-4239  
Fax: +1 (805) 893-8553  
[amr@cs.ucsb.edu](mailto:amr@cs.ucsb.edu)  
<http://www.cs.ucsb.edu/~amr/>

## Technical Program Chair

### Prof. Ausif Mahmood

Dept. of Computer Science & Engineering  
University of Bridgeport  
221 University Avenue  
Tech Building room 229  
Bridgeport, CT 06601  
Tel: +1 (203) 576-4737  
Fax: +1 (203) 576-4765  
[mahmood@bridgeport.edu](mailto:mahmood@bridgeport.edu)  
<http://www.bridgeport.edu/~mahmood>

## Technical Committee

A. Abuzneid  
Nirwan Ansari  
Hesham El-Sayed  
H. Ferhatosmanoglu  
Ahmed Hambaba  
Abdelsalam Helal  
Gonhsin Liu  
Torleiv Maseng  
Anatoly Sachenko  
Paul P. Wang  
Habib Youssef

## Main Theme

**TeNe 09** provides a virtual forum for presentation and discussion of the state-of-the-art research on Telecommunications and Networking. The virtual conference will be conducted through the Internet using web-conferencing tools, made available by the conference. Authors will be presenting their PowerPoint, audio or video presentations using web-conferencing tools without the need for travel. Conference sessions will be broadcast to all the conference participants, where session participants can interact with the presenter during the presentation and (or) during the Q&A slot that follows the presentation. This international conference will be held entirely on-line. The accepted and presented papers will be made available after the conference both on a CD and as a book publication. Conference participants - authors, presenters and attendees - only need an internet connection and sound available on their computers in order to be able to contribute and participate in this international ground-breaking conference. The on-line structure of this high-quality event will allow academic professionals and industry participants to contribute work and attend world-class technical presentations based on rigorously refereed submissions, live, without the need for investing significant travel funds or time out of the office. Potential non-author conference attendees who cannot make the on-line conference dates are encouraged to register, as the entire joint conferences will be archived for future viewing.

**TeNe 09** is the fifth conference of the TeNe series of e-conferences. TeNe 05 was part of CISSE05 ([www.cisse2005.org](http://www.cisse2005.org)), the World's first Engineering/Computing and Systems Research E-Conference. CISSE 2005 was the first high-caliber Research Conference in the world to be completely conducted online in real-time via the internet. CISSE 2005 received 255 research paper submissions and the final program included 140 accepted papers, from more than 45 countries. [CISSE 2006](#) received 691 research paper submissions and the final program included 390 accepted papers, from more than 70 countries. [CISSE 2007](#) received 750 research paper submissions and the final program included [406 accepted papers](#), from more than 80 countries. [CISSE 2008](#) received 948 research paper submissions and the final program included [382 accepted papers](#), from more than 80 countries. The concept and format of CISSE were very exciting and ground-breaking. The PowerPoint presentations, final paper manuscripts and time schedule for live presentations over the web had been available for 3 weeks prior to the start of the conference for all registrants, so they could choose the presentations they want to attend and think about questions that they might want to ask. The live audio presentations were also recorded and were part of the [permanent CISSE archive](#), which also included all power point presentations and papers. Springer, the official publisher for CISSE, published the 2005 proceedings in 2 books [[Book 1 \(Flyer\)](#) and [Book 2 \(Flyer\)](#)], [CISSE 2006](#) proceedings in four books [[Book 1 \(Flyer\)](#), [Book 2 \(Flyer\)](#), [Book 3 \(Flyer\)](#) and [Book 4 \(Flyer\)](#)] and the [CISSE 2007](#) proceedings in four books.

The CISSE conference audio room provided superb audio even over low speed internet connections, the ability to display PowerPoint presentations, and cross-platform compatibility (the conferencing software runs on Windows, Mac, and any other operating system that supports Java). In addition, the conferencing system allowed for an unlimited number of participants, which in turn granted us the opportunity to allow all CISSE participants to attend all presentations, as opposed to limiting the number of available seats for each session.

## International Conference on Telecommunications and Networking (TeNe 09)

**Topics:** Optical Networks and Switching, Computer Networks, Network architectures and Equipment, Access Technologies, Telecommunication Technology, Coding and Modulation technique, Modeling and Simulation, Spread Spectrum and CDMA Systems, OFDM technology, Space-time Coding, Ultra Wideband Communications, Medium Access Control, Spread Spectrum, Wireless LAN: IEEE 802.11, HIPERLAN, Bluetooth, Cellular Wireless Networks, Cordless Systems and Wireless Local Loop, Mobile Network Layer, Mobile Transport Layer, Support for Mobility, Encryption & Message Confidentiality, Block Ciphers Design Principles, Block Ciphers Modes of Operation, Key Cryptography & Message Authentication, Authentication Application, Stenography, Electronic Mail Security, Web Security, IP Security, Firewalls, Computer Forensics. For a more comprehensive list of topics please visit: <http://www.cisse2009.org/tene.aspx>

## Paper Submission

Prospective authors are invited to submit full papers electronically in Microsoft Word format through the website of the individual conference at <http://www.cisse2009.org>. Accepted papers must be presented in the virtual conference by one of the authors. To submit your paper, visit <http://www.cisse2009.org/tene.aspx>.

Paper submission Deadline:	October 12 <sup>th</sup> , 2009
Notification of Acceptance:	November 13 <sup>th</sup> , 2009
Final Manuscript and Registration:	November 26 <sup>th</sup> , 2009
